ANNEX 7: LIST OF AMENDMENTS

1. Changes in Business Process Models

L4-EXP-01-00-AES Master Process - BPMN collaboration diagram (BPMN 2.0)

Object name	**Exit Summary Declaration/Re-Export Notification Invalidation**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Handle Diversion**
Object type	Call activity (collapsed)
Update marker	Update change marker
Update description	"Handle Diversion at Customs Office of Exit" renamed to "Handle Diversion"

Object name	**Customs Formalities at Office(s) of Exit-Handle Controls and Release of Goods**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Export Declaration not Invalidated**
Object type	End event
Update marker	Update addition marker

Object name	**Invalidation Request Received and state is 'Accepted'**
Object type	Conditional intermediate event
Update marker	Update addition marker

Object name	**Time Limit to Receive Alternative Evidence Expired**
Object type	Timer intermediate event
Update marker	Update change marker

Object name	**Export Declaration Invalidation**
Object type	Call activity (collapsed)
Update marker	Update change marker

Update description	"Invalidation of Export Declaration" renamed to "Export Declaration Invalidation"

Object name	**Exit Summary Declaration/Re-Export Notification Invalidation**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Operation Information Query**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Export Declaration Invalidated**
Object type	End event
Update marker	Update addition marker

Object name	**Export Formalities Completed**
Object type	End event
Update marker	Update addition marker

Object name	**Handled Elsewhere**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Diversion at Declared Customs Office of Exit Registered" to "Handled Elsewhere".

Object name	**Re-Export Notification Invalidated**
Object type	End event
Update marker	Update addition marker

Object name	**Process Transit Release Notification**
Object type	Call activity (collapsed)
Update marker	Update change marker
Update description	"Process Transit Presentation Notification" renamed to "Process Transit Release Notification" and description was renamed to be aligned with the rest.

Object name	**Time Limit to Receive Alternative Evidence Expired**
Object type	Timer intermediate event
Update marker	Update change marker

Object name	**Exit Summary Declaration Invalidated**
Object type	End event
Update marker	Update addition marker

L4-EXP-01-01-01-01-Handle e-AD Request and Cross-Checking - BPMN collaboration diagram (BPMN 2.0)

Object name	**e-AD Negative Cross-Check Result**
Object type	Data object
Update marker	Update addition marker

Object name	**Identify whether all requested e-AD messages are received**
Object type	Service task
Update marker	Update addition marker

Object name	**Cross-Check the e-AD and the Customs Declaration**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify MSA of Export of e-AD Negative Cross-Check Result**
Object type	Send task
Update marker	Update addition marker

Object name	**Record Result of Cross-Check**
Object type	Service task
Update marker	Update addition marker

Object name	**Identify whether all responses are received**
Object type	Service task
Update marker	Update addition marker

Object name	**N/A**

Object type	Gateway
Update marker	Update addition marker

Object name	**Identify whether all responses are received**
Object type	Service task
Update marker	Update addition marker

L4-EXP-01-01-01-04-Evaluate Export Presentation Notification - BPMN collaboration diagram (BPMN 2.0)

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Notify Declarant/Representative of Export Presentation Notification Rejection**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Export Presentation Notification Rejection" to "Notify Declarant/Representative of Export Presentation Notification Rejection"

L4-EXP-01-01-01-05-Handle Cancellation Request - BPMN collaboration diagram (BPMN 2.0)

Object name	**Identify Whether Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify Declarant/Representative for Cancellation of Export Declaration**
Object type	Send task
Update marker	Update addition marker

Object name	**Record Decision for Cancellation**
Object type	Service task
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Register Decision for Cancellation**
Object type	User task
Update marker	Update addition marker

Object name	**Notify MSA of Export of Export Declaration Cancellation**
Object type	Send task
Update marker	Update addition marker

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Notify Declarant/Representative for Export Cancellation Rejection**
Object type	Send task
Update marker	Update addition marker

Object name	**Cancelled**
Object type	End event
Update marker	Update addition marker

Object name	**Export Cancellation Request Rejected**
Object type	End event
Update marker	Update addition marker

Object name	**Record Request for Cancellation**

Object type	Service task
Update marker	Update addition marker

Object name	**Export Invalidation Decision**
Object type	Data object
Update marker	Update change marker
Update description	"Export Cancellation Decision" renamed to "Export Invalidation Decision"

Object name	**Cancel Export Declaration**
Object type	Service task
Update marker	Update addition marker

L4-EXP-01-01-01-Acceptance of Export Declaration - BPMN collaboration diagram (BPMN 2.0)

Object name	**Time Limit for Export Presentation Notification Expired**
Object type	Timer intermediate event
Update marker	Update change marker
Update description	Renamed from "Time Limit for Export Presentation Notification" to "Time Limit for Export Presentation Notification Expired"

Object name	**Evaluate Export Presentation Notification**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Handle e-AD Request and Cross-Checking**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Identify Whether Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker

Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Notify Declarant/Representative of Acceptance**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Acceptance" to "Notify Declarant/Representative of Acceptance"

Object name	**Handle e-AD Request and Cross-Checking**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Identify Whether Accepted Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Request and Record Risk Analysis for AES**
Object type	Subprocess (collapsed)
Update marker	Update addition marker

Object name	**Receive Export Declaration Cancellation**
Object type	Message intermediate event (catch)
Update marker	Update addition marker

Object name	**Evaluate Correction Request**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Receive Export Declaration Correction**
Object type	Message intermediate event (catch)
Update marker	Update addition marker

Object name	**All e-ADs received and Cross-Check Successful?**
Object type	Gateway

Update marker	Update change marker
Update description	Renamed from "Cross-Check Successful or e-AD Rejected/Negative Cross-Check Result?" to "All e-ADs received and Cross-Check Successful?"

Object name	**Notify Declarant/Representative of Export Declaration Rejection**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Export Declaration Rejection" to "Notify Declarant/Representative of Export Declaration Rejection"

Object name	**Cancelled**
Object type	End event
Update marker	Update addition marker

Object name	**Notify Declarant/Representative of Control Intention Prior to Presentation**
Object type	Send task
Update marker	Update change marker
Update description	Rename from "Notify Exporter/Declarant of Control Intention Prior to Presentation" to "Notify Declarant/Representative of Control Intention Prior to Presentation"

Object name	**Record Control Intention prior to Presentation**
Object type	Service task
Update marker	Update change marker
Update description	Renamed from "Record Control Decision prior to Presentation" to "Record Control Intention prior to Presentation"

Object name	**Identify Whether Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Handle Cancellation Request**
Object type	Call activity
Update marker	Update addition marker

Object name	**Export Invalidation Request**
Object type	Data object
Update marker	Update change marker
Update description	"Export Cancellation Request" renamed to "Export Invalidation Request"

Object name	**All e-ADs received and Cross-Check Successful?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Cross-Check Successful or e-AD Rejected/Negative Cross-Check Result?" to "All e-ADs received and Cross-Check Successful?"

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Notify Declarant/Representative of Export Declaration Rejection**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Export Declaration Rejection" to "Notify Declarant/Representative of Export Declaration Rejection"

Object name	**Register Control Intention prior to Presentation**
Object type	User task
Update marker	Update change marker
Update description	Renamed from "Register Control Decision prior to Presentation" to "Register Control Intention prior to Presentation"

Object name	**Pre-allocate MRN for AES**
Object type	Service task

Update marker	Update addition marker

Object name	**Notify Declarant/Representative of Export Declaration Rejection**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Export Declaration Rejection" to "Notify Declarant/Representative of Export Declaration Rejection"

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Request and Record Risk Analysis for AES**
Object type	Subprocess (collapsed)
Update marker	Update addition marker

L4-EXP-01-01-02-Register and Record Control Decision - BPMN collaboration diagram (BPMN 2.0)

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Notify Declarant/Representative of Controls**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Controls" to "Notify Declarant/Representative of Controls"

L4-EXP-01-01-03-01-Register Documentary Controls at Supervising Customs Office - BPMN collaboration diagram (BPMN 2.0)

Object name	**SCO - Supervising Customs Office**
Object type	Pool
Update marker	Update change marker

Update description	The pool name has been set as "SCO - Supervising Customs Office", so as to include the abbreviation.

L4-EXP-01-01-03-03-Notify PCO for Pre-release/Control Recommendation or Release Rejection - BPMN collaboration diagram (BPMN 2.0)

Object name	**Notify Declarant/Representative for Controls and Request Documents, if necessary**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**SCO - Supervising Customs Office**
Object type	Pool
Update marker	Update change marker
Update description	The pool name has been set as "SCO - Supervising Customs Office", so as to include the abbreviation.

Object name	**Notify SCO of Control Results from PCO**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify SCO of Control Results" to "Notify SCO at Control from PCO"

Object name	**Reminder for Control Decision**
Object type	Data object
Update marker	Update addition marker

Object name	**N/A**
Object type	Event-based gateway
Update marker	Update addition marker

Object name	**Notify Supervising Customs Office about Control Decision from PCO**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Supervising Customs Office about Controls" to "Notify Supervising Customs Office about Control Decision from PCO".

Object name	**Notify release rejection due to Unsatisfactory Documentary Controls at SCO**
Object type	Conditional start event
Update marker	Update addition marker

Object name	**Notify PCO with Reminder for Control Decision**
Object type	Send task
Update marker	Update addition marker

Object name	**No PCO Control Decision is sent**
Object type	End event
Update marker	Update addition marker

Object name	**No Reminder received for Control Decision**
Object type	Conditional intermediate event
Update marker	Update addition marker

Object name	**PCO Controls to be Performed?**
Object type	Gateway
Update marker	Update addition marker

Object name	**PCO Control Results Recorded**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Control Results Recorded" to "PCO Control Results Recorded".

Object name	**Notify SCO for Pre-Release/Control Acknowledgment**
Object type	Send task
Update marker	Update addition marker

Object name	**Receive Control Decision**
Object type	Message intermediate event (catch)
Update marker	Update change marker
Update description	Renamed from "Receive Control Notification" to "Receive Control Decision".

Object name	**Receive Pre-Release Notification**
Object type	Message start event
Update marker	Update change marker
Update description	Renamed from "Receive Pre-Release Notification" to "Receive Pre-Release/Control Notification".

Object name	**Recommend pre-release to PCO**
Object type	Conditional start event
Update marker	Update change marker
Update description	Name altered from "No Controls are Requested or Documentary Controls have been Performed without Physical Controls" to "Recommend pre-release to PCO"

Object name	**Not Released for Export**
Object type	End event
Update marker	Update addition marker

Object name	**Recommend controls at PCO**
Object type	Conditional start event
Update marker	Update addition marker

Object name	**Not Released for Export**
Object type	End event
Update marker	Update addition marker

Object name	**Record Non-Receipt of Control Decision**
Object type	Service task
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Receive Reminder for Control Decision**
Object type	Message intermediate event (catch)
Update marker	Update addition marker

Object name	**Identify SCO Decision or Recommendation**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify PCO with Pre-release/Control Notification**
Object type	Send task
Update marker	Update change marker
Update description	Name altered from "Notify PCO Goods Can Be Released" to "Notify PCO with Pre-release/Control Notification"

Object name	**Does SCO Decision indicate Release Rejection?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Identify PCO Control Decision**
Object type	Service task
Update marker	Update addition marker

Object name	**Did PCO Control Decision indicate Controls to be performed?**
Object type	Gateway
Update marker	Update addition marker
Update description	Renamed from "Goods to be Controlled?" to "Did PCO Control Decision indicate Controls to be performed?".

Object name	**A configurable amount of time before expiration of Timer to Receive Control Notification**
Object type	Timer intermediate event
Update marker	Update addition marker

Object name	**Identify SCO Decision or Recommendation**
Object type	Service task
Update marker	Update addition marker

Object name	**Record Recommendation/Release Rejection at PCO**
Object type	Service task
Update marker	Update addition marker

Object name	**Request and Record Risk Analysis for AES**
Object type	Subprocess (collapsed)
Update marker	Update addition marker

Object name	**Pre-release/Control Acknowledgment**
Object type	Data object
Update marker	Update change marker
Update description	Renamed from "Request to Control Acknowledgment" to "Pre-release/Control Acknowledgment".

Object name	**Take Decision to Release the Goods for Export**
Object type	Service task
Update marker	Update addition marker

Object name	**Does SCO Decision indicate Release Rejection?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Identify PCO Control Decision**
Object type	Service task
Update marker	Update addition marker

Object name	**Record Receipt of Pre-Release/Control Acknowledgement**
Object type	Service task
Update marker	Update addition marker

Object name	**Receive Pre-release/Control Acknowledgment**
Object type	Message intermediate event (catch)
Update marker	Update addition marker

Object name	**Pre-Release/Control Notification**
Object type	Data object
Update marker	Update change marker
Update description	Name altered from "Request to Control" to "Pre-Release/Control Notification".

Object name	**N/A**
Object type	Gateway
Update marker	Update addition marker

Object name	**Proceed with sending PCO Control Decision?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Identify SCO Decision or Recommendation**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify Declarant/Representative of Non Release of Goods for Export**
Object type	Send task
Update marker	Update change marker
Update description	Replaced Trader with Declarant/Representative.

L4-EXP-01-01-03-04-Notify Declarant/Representative for Controls and/or Requested Documents - BPMN collaboration diagram (BPMN 2.0)

Object name	**Notify Declarant/Representative with Export Control Decision Notification**
Object type	Send task
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**SCO notified Declarant/Representative upon Control Decision**
Object type	End event
Update marker	Update addition marker

Object name	**Physical Controls to be performed**
Object type	Conditional start event
Update marker	Update addition marker

Object name	**SCO - Supervising Customs Office**
Object type	Pool
Update marker	Update change marker
Update description	The pool name has been set as "SCO - Supervising Customs Office", so as to include the abbreviation.

Object name	**Documents need to be requested**
Object type	Conditional start event
Update marker	Update addition marker

L4-EXP-01-01-03-Register Control Decision and Results under Centralised Clearance - BPMN collaboration diagram (BPMN 2.0)

Object name	**Documentary Controls to be Performed?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Controls to be Performed?" to "Documentary Controls to be Performed?".

Object name	**Record Decision to Recommend Controls**
Object type	Service task
Update marker	Update addition marker

Object name	**Goods Can Be Released or PCO Control Results Recorded or Goods Not Released for Export?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Goods Can Be Released or Control Results Recorded?" to "Goods Can Be Released

	or PCO Control Results Recorded or Goods Not Released for Export?".

Object name	**PCO Control Results Recorded**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Control Results Recorded" to "PCO Control Results Recorded".

Object name	**Record Decision to Release Rejection**
Object type	Service task
Update marker	Update addition marker

Object name	**Record Decision to Recommend Pre-release**
Object type	Service task
Update marker	Update addition marker

Object name	**Record Control Decision for AES**
Object type	Service task
Update marker	Update addition marker

Object name	**Satisfactory or Not Satisfactory Documentary Controls?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Recommend Pre-release or Controls?**
Object type	Gateway
Update marker	Update addition marker

Object name	**SCO - Supervising Customs Office**
Object type	Pool
Update marker	Update change marker
Update description	The pool name has been set as "SCO - Supervising Customs Office", so as to include the abbreviation.

Object name	**N/A**

Object type	Parallel gateway
Update marker	Update addition marker

Object name	**Need to Request Documents?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Notify Declarant/Representative to Request Documents during Documentary Controls**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Not Released for Export**
Object type	End event
Update marker	Update addition marker

Object name	**Decide to Recommend Control or Pre-release**
Object type	Service task
Update marker	Update addition marker

Object name	**N/A**
Object type	Parallel gateway
Update marker	Update addition marker

Object name	**Identify Documentary Control Results**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify PCO for Pre-release/Control Recommendation or Release Rejection**
Object type	Call activity (collapsed)
Update marker	Update change marker
Update description	Renamed from "Notify PCO for Pre-release" to "Notify PCO for Pre-release/Control Recommendation or Release Rejection". Now, it incorporates all options of SCO Decision (Recommend pre-release, recommend controls, release rejection decision).

Object name	**Register Control Decision for AES**
Object type	User task
Update marker	Update addition marker

L4-EXP-01-01-05-Handle Results of Control and Release Request - BPMN collaboration diagram (BPMN 2.0)

Object name	**Control Result Satisfactory or Unsatisfactory?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Control Result Satisfactory or Major Discrepancies?" to "Control Result Satisfactory or Unsatisfactory?

Object name	**Goods Not To Be Released**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Goods Cannot Be Released" to "Goods Not To Be Released".
Reference for Update	

Object name	**PCO Control Results Recorded**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Control Results Recorded" to "PCO Control Results Recorded".

L4-EXP-01-01-07-Do Not Release Goods at Office of Export - BPMN collaboration diagram (BPMN 2.0)

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Identify Whether Accepted Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify Declarant/Representative of Non Release of Goods for Export**
Object type	Send task
Update marker	Update change marker
Update description	Replaced Trader with Declarant/Representative.

Object name	**Identify if Declaration Concerns Centralised Clearance**
Object type	Service task
Update marker	Update addition marker

Object name	**Not Released for Export**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Goods not Released for Export" to "Not Released for Export".

Object name	**Not Released for Export**
Object type	End event
Update marker	Update change marker
Update description	Renamed from "Goods Not Released for Export" to "Not Released for Export".

Object name	**Goods Not To Be Released**
Object type	Conditional start event
Update marker	Update change marker
Update description	Renamed from "Goods Cannot Be Released" to "Goods Not To Be Released".

Object name	**Record Release Rejection Notification**
Object type	Service task
Update marker	Update addition marker

Object name	**Notify PCO of Release Rejection of Goods for Export**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify PCO of Non-Release of Goods for Export" to "Notify PCO of Release Rejection of Goods for Export".

L4-EXP-01-01-Customs Formalities at Office of Export-Acceptance and Controls - BPMN collaboration diagram (BPMN 2.0)

Object name	**Register Control Decision and Results under Centralised Clearance**
Object type	Call activity (collapsed)
Update marker	Update change marker
Update description	Renamed from "Handle Control Decision and Register Results under Centralised Clearance" to "Register Control Decision and Results under Centralised Clearance". Also, this call activity used to occur later on the flow, but due to adjustments in the CCE process, the model has been updated to have in seperate flows the Registration of Control Decision in Core flow and CCE.

Object name	**Export Declaration Amended**
Object type	Conditional start event
Update marker	Update addition marker

Object name	**Identify if Declaration Concerns Centralised Clearance**
Object type	Service task
Update marker	Update addition marker

Object name	**Goods Can Be Released or PCO Control Results Recorded or Goods Not Released for Export?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Control Results Recorded or Goods Can be Released?" to "Goods Can Be Released or PCO Control Results Recorded or Goods Not Released for Export?".

Object name	**Handle Results of Control and Release Request**
Object type	Call activity (collapsed)
Update marker	Update change marker
Update description	'Minor discrepancies' branch removed. Scenario where the Trader expresses either Opposition/No Advice or No Opposition is no longer applicable.

Object name	**Declarant/Representative**
Object type	Pool

Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Goods Can Be Released for Export?**
Object type	Gateway
Update marker	Update change marker
Update description	Renamed from "Goods Ready to be Released or Release Decision Required or Goods Cannot Be Released?" to "Goods Can Be Released for Export?". The call activity "Take Release Decision" has been removed, as is considered redundant. Thus, only 2 options are now available, to state that goods can be released or not.

Object name	**Not Released for Export**
Object type	End event
Update marker	Update addition marker

Object name	**Not Released for Export**
Object type	End event
Update marker	Update addition marker

1.1. L4-EXP-01-02-Customs Formalities at Office of Export-Release - BPMN collaboration diagram (BPMN 2.0)

Update marker	Update addition marker

Object name	**Identify Whether Accepted Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Record AER**
Object type	Service task
Update marker	Update addition marker

Object name	**Anticipated Export Record Received**
Object type	Message start event
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Notify Declarant/Representative of Release of Goods for Export**
Object type	Send task
Update marker	Update change marker
Update description	Renamed from "Notify Exporter/Declarant of Release of Goods for Export" to "Notify Declarant/Representative of Release of Goods for Export".

Object name	**Identify if Declaration Concerns Centralised Clearance**
Object type	Service task
Update marker	Update addition marker

Object name	**Anticipated Export Record Registered**
Object type	End event
Update marker	Update addition marker

Object name	**Request and Record Risk Analysis for AES**
Object type	Subprocess (collapsed)
Update marker	Update addition marker

L4-EXP-01-04-01-Extend Timer for Lodgement of Supplementary Declaration - BPMN collaboration diagram (BPMN 2.0)

Object name	**Notify Declarant/Representative of the Time Limit Extension**
Object type	Send task
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

L4-EXP-01-04-Supplementary Declaration - BPMN collaboration diagram (BPMN 2.0)

Object name	**Forward Matched Declaration Data**
Object type	Send task
Update marker	Update change marker

Object name	**Extend Timer for Lodgement of Supplementary Declaration**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Notify Declarant/Representative of Supplementary Declaration Rejection**
Object type	Send task
Update marker	Update addition marker

Object name	**Customs Declaration for Export Supplemented**
Object type	End event
Update marker	Update change marker

Object name	**Reject Supplementary Declaration**
Object type	Service task
Update marker	Update addition marker

Object name	**Extend Timer for Lodgement of Supplementary Declaration**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**Identify if Declaration Concerns Centralised Clearance**
Object type	Service task

Update marker	Update addition marker

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

1.2. L4-EXP-01-05-Amendment of the Export Declaration - BPMN collaboration diagram (BPMN 2.0)

Update marker	Update change marker

Object name	**Is the movement state 'Accepted'?**
Object type	Gateway
Update marker	Update addition marker

Object name	**Rejection from Office of Export**
Object type	Data object
Update marker	Update addition marker

Object name	**Receive Export Declaration Correction Request**
Object type	Conditional start event
Update marker	Update addition marker

Object name	**Declarant/Representative**
Object type	Pool
Update marker	Update change marker
Update description	Name of the pool has changed from "Exporter or Declarant" to "Declarant/Representative"

Object name	**Handle e-AD Request and Cross-Checking**
Object type	Call activity (collapsed)
Update marker	Update addition marker

Object name	**All e-ADs received and Cross-Check Successful?**
Object type	Gateway

Update marker	Update change marker
Update description	Renamed from "Cross-Check Successful or e-AD Rejected/Negative Cross-Check Result?" to "All e-ADs received and Cross-Check Successful?"

Object name	**Identify Whether Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

Object name	**Request and Record Risk Analysis for AES**
Object type	Subprocess (collapsed)
Update marker	Update addition marker

Object name	**N/A**
Object type	Gateway
Update marker	Update addition marker

Object name	**Identify if the movement state is 'Accepted'**
Object type	Service task
Update marker	Update addition marker

Object name	**Identify Whether Accepted Export Declaration Contains ARC(s)**
Object type	Service task
Update marker	Update addition marker

L4-EXP-01-07-01-Process Manifest Presentation - BPMN collaboration diagram (BPMN 2.0)

Object name	**Goods Held for Storing**
Object type	Conditional start event
Update marker	Update change marker
Update description	Renamed from "Goods Released for Exit" to "Goods Held for Storing"

Object name	**Receive Manifest Presentation in 'Partially Exited' state**
Object type	Message start event
Update marker	Update addition marker

Object name	**N/A**
Object type	Gateway
Update marker	Update addition marker

L4-EXP-01-07-02-Handle Exit Notification - BPMN collaboration diagram (BPMN 2.0)

Object name	**Identify if Exit Information refers to Partial Exit**
Object type	Service task
Update marker	Update addition marker

2. Changes in Information Exchanges

2.1. Changes in Data Groups

IE048 Recovery Communication N_REC_COM - Message allocation diagram

Object name	**Consignment**
Object type	Data set
Update marker	Update addition marker
Update description	Data group added in the context of the EUCDM update

Object name	**Documents Produced, Certificates and Authorisations, Additional References**
Object type	Data set
Update marker	Update change marker
Update description	Aligned to UCC Annex B and EUCDM.

IE501 AER C_AER_SND - Message allocation diagram

Object name	**Representative**
Object type	Data set
Update marker	Update deletion marker

Update description	Content aligned with Annex B - UCC. Deleted TIN data element, which is replaced from Representative Identification and is placed within the Export Operation data group. Renamed Representative/Trader to Exporter.

Object name	**Identity Of Means Of Transport At Departure**
Object type	Data set
Update marker	Update addition marker
Update description	New data group, content aligned to UCC - Annex B.The previous Identity at Departure data element is replaced by Identification Number, format chagned from an..27 to an..35. In addition, the data element is not belogning to export/transit operation data group, but to this new data group.

Object name	**Exporter**
Object type	Data set
Update marker	Update deletion marker
Update description	Content aligned with Annex B - UCC. Deleted TIN data element, which is replaced from Exporter Identification and is placed within the Export Operation data group. Renamed Exporter/Trader to Exporter.

Object name	**Additional supply chain actor(s) identification n°**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per Annex B - UCC

Object name	**Address**
Object type	Data set
Update marker	Update addition marker
Update description	Alignment to UCC IA Annex B and to EUCDM

Object name	**Additional Document**
Object type	Data set
Update marker	Update addition marker
Update description	New addition as per Annex B - UCC

Object name	**Additional Information**
Object type	Data set
Update marker	Update change marker

Update description	Renamed from Special Mentions to Additional Information as per Annex B - UCC

Object name	**Additional supply chain actor(s) identification n°**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per Annex B - UCC

Object name	**Address**
Object type	Data set
Update marker	Update addition marker
Update description	Alignment to UCC IA Annex B and to EUCDM

Object name	**Additional Procedure**
Object type	Data set
Update marker	Update change marker
Update description	Changed from data element Community / national procedure to data group Additional Procedure as per UCC-Annex B

Object name	**Packaging**
Object type	Data set
Update marker	Update deletion marker
Update description	Content aligned to UCC - Annex B. Number of pieces data element deleted.

Object name	**Delivery Terms**
Object type	Data set
Update marker	Update change marker
Update description	Content aligned to Annex B - UCC

Object name	**Risk Analysis**
Object type	Data set
Update marker	Update change marker
Update description	The data group structure and content has changed

Object name	**Risk Analysis Result**

Object type	Data set
Update marker	Update addition marker
Update description	The data group is added due to change of the structure and content of data group "Risk Analysis"

Object name	**Control Result**
Object type	Data set
Update marker	Update addition marker
Update description	The data group is added due to change of the structure and content of data group "Risk Analysis"

IE502 Declaration Request Export C_EXP_REQ - Message allocation diagram

IE507 Arrival at Exit E_ARR_EXT - Message allocation diagram

Object name	**Export Operation for IE507**
Object type	Data set
Update marker	Update deletion marker
Update description	Aligned to Annex B-UCC. Deleted Customs Sub Place, Arrival Agreed location code and Arrival agreed Location of goods data elements and replaced it by the Location of Goods data group as per Annex B-UCC

Object name	**Location Of Goods**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per UCC -Annex B, replacing data elements such as agreed location of goods, authorised location of goods.

Object name	**Packaging**
Object type	Data set
Update marker	Update deletion marker
Update description	Content aligned to UCC - Annex B. Number of pieces data element deleted.

Object name	**Customs Office Actual Office of Exit**
Object type	Data set
Update marker	Update addition marker

IE509 Export Cancellation Decision E_EXP_DEC - Message allocation diagram

Object name	**Exporter**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Exporter (MCC.475043) with Exporter (MCC.1031786)

IE511 Export Presentation Notification E_PRE_NOT - Message allocation diagram

Object name	**Representative**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Representative Status (MCC.19135) and Representative (MCC.973800) with Representative (MCC.1031787).

Object name	**Location Of Goods**

Object type	Data set
Update marker	Update addition marker
Update description	New data group as per UCC -Annex B, replacing data elements such as agreed location of goods, authorised location of goods.

IE513 Export Declaration Amendment E_EXP_AMD - Message allocation diagram

Object name	**Authentication**
Object type	Data set
Update marker	Update addition marker

Object name	**Additional Document / Deferred Payment**
Object type	Data set
Update marker	Update addition marker
Update description	Added Additional Document/ Deferred Payment (MCC.1031780).

Object name	**Representative**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Representative Status (MCC.19135) and Representative (MCC.973800) with Representative (MCC.1031787).

Object name	**Holder of the Authorisation Identification No.**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Holder of the Authorisation Identification (MCC.416094) with Holder of the Authorisation Identification No. (MCC.1031790).

Object name	**Border Transport Means**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Border Transport Means for IE515 (MCC.993500) with Border Transport Means (MCC.1031788).

Object name	**Identity Of Means Of Transport At Departure**
Object type	Data set
Update marker	Update addition marker

Update description	New data group, content aligned to UCC - Annex B.The previous Identity at Departure data element is replaced by Identification Number, format chagned from an..27 to an..35. In addition, the data element is not belogning to export/transit operation data group, but to this new data group.

Object name	**Currency Exchange**
Object type	Data set
Update marker	Update addition marker
Update description	Added Currency Exchange (MCC.1031020).

Object name	**Exporter**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Exporter (MCC.475043) with Exporter (MCC.1031786)

Object name	**Additional supply chain actor(s) identification n°**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per Annex B - UCC

Object name	**Address**
Object type	Data set
Update marker	Update addition marker
Update description	Alignment to UCC IA Annex B and to EUCDM

Object name	**Location Of Goods**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per UCC -Annex B, replacing data elements such as agreed location of goods, authorised location of goods.

Object name	**Additional Document**
Object type	Data set
Update marker	Update addition marker
Update description	New addition as per Annex B - UCC

Object name	**Additional Information**
Object type	Data set
Update marker	Update change marker
Update description	Renamed from Special Mentions to Additional Information as per Annex B - UCC

Object name	**Additional supply chain actor(s) identification n°**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per Annex B - UCC

Object name	**Address**
Object type	Data set
Update marker	Update addition marker
Update description	Alignment to UCC IA Annex B and to EUCDM

Object name	**Additional Procedure**
Object type	Data set
Update marker	Update change marker
Update description	Changed from data element Community / national procedure to data group Additional Procedure as per UCC-Annex B

Object name	**Packaging**
Object type	Data set
Update marker	Update deletion marker
Update description	Content aligned to UCC - Annex B. Number of pieces data element deleted.

Object name	**Simplified Declaration / Previous Documents**
Object type	Data set
Update marker	Update change marker
Update description	Name and content changed as per Annex B - UCC. Name changed from Previous Administrative References to Simplified Declaration/Previous Documents. Added in Header Level as well according to UCC-AnnexB

Object name	**Delivery Terms**

Object type	Data set
Update marker	Update change marker
Update description	Content aligned to Annex B - UCC

Object name	**Identification of Warehouse**
Object type	Data set
Update marker	Update deletion marker
Update description	Content aligned with Annex B - UCC. Deleted data element Authorizing Country as it is not present in Annex B.

Object name	**Simplified Declaration / Previous Documents**
Object type	Data set
Update marker	Update change marker
Update description	Name and content changed as per Annex B - UCC. Name changed from Previous Administrative References to Simplified Declaration/Previous Documents. Added in Header Level as well according to UCC-AnnexB

IE514 Export Cancellation Request E_EXP_CAN - Message allocation diagram

Object name	**Exporter**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Exporter (MCC.475043) with Exporter (MCC.1031786)

2.1.1. IE515 Export Declaration E_EXP_DAT - Message allocation diagram

Update marker	Update addition marker
Update description	Added Currency Exchange (MCC.1031020).

Object name	**Export Operation for IE515**
Object type	Data set
Update marker	Update change marker
Update description	Content aligned to UCC - Annex B. Added LRN data element based on DDNXA Q2. Deleted Identity at Departure data element as it is moved to a data group outside export operation data group (see new data group Identity of means of transport at departure)

Object name	**Authentication**

Object type	Data set
Update marker	Update addition marker

Object name	**Additional Document / Deferred Payment**
Object type	Data set
Update marker	Update addition marker
Update description	Added Additional Document/ Deferred Payment (MCC.1031780).

Object name	**Representative**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Representative Status (MCC.19135) and Representative (MCC.973800) with Representative (MCC.1031787).

Object name	**Holder of the Authorisation Identification No.**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Holder of the Authorisation Identification (MCC.416094) with Holder of the Authorisation Identification No. (MCC.1031790).

Object name	**Border Transport Means**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Border Transport Means for IE515 (MCC.993500) with Border Transport Means (MCC.1031788).

Object name	**Identity Of Means Of Transport At Departure**
Object type	Data set
Update marker	Update addition marker
Update description	New data group, content aligned to UCC - Annex B.The previous Identity at Departure data element is replaced by Identification Number, format chagned from an..27 to an..35. In addition, the data element is not belogning to export/transit operation data group, but to this new data group.

Object name	**Currency Exchange**
Object type	Data set
Update marker	Update addition marker

Update description	Added Currency Exchange (MCC.1031020).

Object name	**Exporter**
Object type	Data set
Update marker	Update change marker
Update description	Replaced Exporter (MCC.475043) with Exporter (MCC.1031786)

Object name	**Goods Shipment**
Object type	Data set
Update marker	Update addition marker
Update description	Added Goods Shipment for IE515 (MCC.1031040).

Object name	**Additional supply chain actor(s) identification n°**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per Annex B - UCC

Object name	**Address**
Object type	Data set
Update marker	Update addition marker
Update description	Alignment to UCC IA Annex B and to EUCDM

Object name	**Location Of Goods**
Object type	Data set
Update marker	Update addition marker
Update description	New data group as per UCC -Annex B, replacing data elements such as agreed location of goods, authorised location of goods.

Object name	**Additional Document**
Object type	Data set
Update marker	Update addition marker
Update description	New addition as per Annex B - UCC

Object name	**Additional Information**
Object type	Data set
