CHANGE OF RULES FOR ENTRY SUMMARY DECLARATION AMENDMENT

From 8th of January 2015 at 7.00 AM Croatian Customs Administration will implement and deploy in production environment a new version of ICS application, which will include change of the business rules for cases of receiving and processing requests for entry summary declaration amendment (IE313 messages).

The new version of ICS application will support submitting of ENS amendments changing almost all data sets of entry summary declaration, except the data relating to the country of the declared customs office of first entry, the message sender or his representative.

User documentation updated to the following amendments:
1. ICS TEST SCENARIOS FOR ECONOMICS v1.1
2. ICS TEST SCENARIOS FOR FOREIGN TRADERS v1.1_ENG

Croatian Customs Administration continuously allows entrepreneurs to test their own applications in the pre-production environment.
