ICS2 R2 Webinar with EO

- All consignments (postal, express, general cargo) transported to or via the EU will be subject to ENS filing requirements for 2 types of risk analysis:
 - Air pre-loading – aviation security only (PLACI)
 - Air pre-arrival – all security and safety related risks
- The entry process is built around these 2 phases of risk analysis.
- **Start at 01.03.2023.**

14 new ENS filing types in total

Arrival notification

- Lodged by air carriers upon arrival at the COFE (HR - directly via ICS2 STI).
- Relevant ENS for the arrived means of transport can be retrieved via three different references:
 - MRN (in most cases won't be used by carriers)
 - Master transport document references and Expected date and time of arrival
 - 'Entry key' composed from Conveyance reference number and Expected date and time of arrival
- Control recommendations are communicated by MS (if applicable).
- Notify Party for the Arrival.

Arrival notification

- Lodged by air carriers upon arrival at the COFE (HR - directly via ICS2 STI).
- **Ground handling agent could be representative of person notifying arrival and/or person presenting the goods if declarant/carrier has appointed it to carry customs formalities. There are no restrictions for that in legislation.**

Presentation notification

- Express and air cargo general consignments will be presented only once at COFE – presentation will be done by carrier;
- Postal consignments will be presented twice:
 - COFE (presentation done by carrier);
 - MS of destination (presentation done by postal operator).

Presentation notification

- ICS2 accepts presentation done at a level of:
 - MRN
 - MAWB
 - HAWB
 - Receptacle (carrier presentation only)
 - House consignment (postal operator presentation)
 - Container (if used)

Presentation notification

- Ground handling agent could be representative of person notifying arrival and/or person presenting the goods if declarant/carrier has appointed it to carry customs formalities. There are no restrictions for that in legislation.

Deployment window

- Mandatory communication of all participants
- Written communication with customs authorities
- The deployment window allowed by the legislation for each release is not applicable by default – it needs to be granted by the Member States in close coordination with the Commission.

Deployment window

- **31.01.2023!**
- EO that has a legal obligation to file an ENS and is not ready to go live with ICS2 Release 2 can request a deployment window from the customs authority of the country of registration/establishment.
- At least the following information should be provided in the application by the EO:

Deployment window

- company name and EORI number;
- role in ICS2 business process (air carrier, express carrier, postal operator, house filer);
- requested duration of the deployment window – “from date” and “to date”;
- provisional date when EO is planning to go-live with ICS2 Release 2.

Deployment window

- MS of registration should check whether duration of requested deployment window and provisional go-live date is in line with ICS2 Transition from Release 1 to Release 2 strategy [R05] and chapter 5 of GLP.

Hvala!
