Update description	As per UCC ((Article 233(4)(d)) a reduced data set (D2) of transit declaration is introduced, which can be applied by air, rail and maritime transport. This simplification requires a specific authorisation to be granted. The data element "Reduced Dataset Indicator" is an indicator of whether the data set of the transit declaration is full (D1) or reduced (D2). The data element and the corresponding condition (C0399) is added to IEs and data elements respectively, that are used in the D2 dataset.
