**Subject: TARIC data created for Regulation (EU) 2023/1115 on deforestation and forest degradation**

## 1. INTRODUCTION

The new deforestation and forest degradation scheme imposes an obligation to present a due diligence statement for importers or exporters when importing (in the EU) or exporting (out of the EU) products falling under the provisions defined in the deforestation scheme.

This obligation applies at the time of lodging the customs declaration for releasing goods for free circulation (hereinafter referred to as "import") or the export declaration. If the obligations are not met, import or export is prohibited.

## 2. LEGAL PROVISIONS CONCERNED

Regulation (EU) 2023/1151 (hereinafter referred to as "the Regulation" or "EUDR") replaces Regulation (EU) No 995/2010 laying down the obligations of operators who place timber and timber products on the market.

The implementation schedule is defined in Articles 37 and 38 of the Regulation. The Regulation entered into force on 29 June 2023, the twentieth day following that of its publication in the Official Journal of the European Union.

The provisions covered in this working document shall apply from 30 December 2024 (Article 38(2) of the Regulation).

The products covered by the Regulation are divided in 2 groups. The first group is the 'relevant commodities', that means cattle, cocoa, coffee, oil palm, rubber, soya and wood. The second group is the 'relevant products'. These are products that contain, have been fed with or have been made using relevant commodities.

The 'relevant commodities' and 'relevant products' with the associated goods codes from the Combined Nomenclature are defined in Annex I of the Regulation.

<sup>1</sup> Regulation (EU) 2023/1115 of the European Parliament and of the Council of 31 May 2023 on the making available on the Union market and the export from the Union of certain commodities and products associated with deforestation and forest degradation and repealing Regulation (EU) No 995/2010 (OJ L 150, 9.6.2023, p. 206)

Article 3 defines import and export prohibitions and the conditions under which the import and export is allowed.

The conditions that allow import/export are that the declared goods:

- are deforestation-free,
- have been produced in accordance with the relevant legislation of the country of production and
- are covered by a due diligence statement.

Articles 4(1) and 4(2) define an obligation of the operator as follows:

- Operators shall exercise due diligence in accordance with Article 8 prior to placing relevant products on the market or exporting them, to prove that the relevant products comply with Article 3.
- Operators shall not place relevant products on the market or export them without prior submission of a due diligence statement.

According to the provisions of article 33, all the operators and traders and their authorised representatives in the Union that import or export the goods falling under the provisions of the Regulation must be registered in the EU information system.

### **3. TARIC DATA**

The provisions defined in the EUDR apply to import and export. These provisions are similar for import and export, but the declaration process can differ. Notably, the declaration of 10-digit TARIC codes at import and 8-digit CN codes at export. To remain flexible and accommodate to such difference, distinct TARIC measures, one for import and the other for export, have been created in TARIC.

#### **3.1. TARIC document codes**

According to the provisions of Articles 1, 3 and consequently Articles 4, 7, 8 and 9 of the EUDR, import or export of the products within the scope are subject to the presentation of the due diligence statement.

At the same time, all operators (traders and their authorised representatives) must be registered in the EU information system (article 33).

The TARIC document codes below are used both for the import and export procedures.

A new TARIC document code C716 corresponding to the due diligence statement has been created. The declarant has to use this code to declare to the national customs authorities that he/she is in possession of the required due diligence statement.

C716	Due diligence statement, presented for imports/exports in accordance with Article 3 of Regulation (EU) 2023/1115 on deforestation and forest degradation
------	--

A New TARIC document code C717 is created, corresponding to the derogation for SME operators as defined in Article 4(8) of the EUDR. C717 is declared in customs by SME operators when they are not required to exercise due diligence for relevant products contained in or made from relevant products that have already been subject to due diligence, and for which a due diligence statement has already been submitted.

C717	Reference number of due diligence statement previously submitted, in accordance with Article 4.8 of Regulation (EU) 2023/1115
------	---

A new TARIC document code Y129 has been created to cover the "ex" codes in Annex I of the EUDR. This corresponds to the declaration of a nomenclature code that covers more products than those falling within the scope of the EUDR. In such case, the declarant must have the possibility to state that the import is not concerned by the regulation, although the declared product is classified under a nomenclature code impacted by the EUDR.

Y129	Goods other than those falling under the provisions of Regulation (EU) 2023/1115 on deforestation and forest degradation.
------	---

A new TARIC document code Y132 has been created to cover Article 1.2 of the EUDR where it is stated that the Regulation does not apply to the relevant products listed in Annex I produced before the date indicated in Article 38(1).

Y132	Exemption from the provisions of Regulation (EU) 2023/1115 on deforestation and forest degradation by virtue of paragraph 2 of Article 1.
------	---

A new TARIC document code Y133 has been created to cover the exemption defined in the second explanatory paragraph in Annex I, stipulating that the regulation does not apply to goods if they are produced entirely from material that has completed its lifecycle and would otherwise have been discarded as waste as defined in Article 3, point (1) of Directive 2008/98/EC.

Y133	Exemption from the provisions of Regulation (EU) 2023/1115 on deforestation and forest degradation by virtue of the second explanatory paragraph of Annex I (goods produced from material that has completed its lifecycle)
------	---

A new TARIC document code Y141 has been created to cover the exemption defined in Article 38(3) for operators that, by 31 December 2020, were established as micro-undertakings or small undertakings pursuant to Article 3(1) or (2) of Directive 2013/34/EU. For these operators, the provisions from Article 38(2) shall apply as from 30 June 2025. This means that this TARIC document code will be declarable in customs only until 29 June 2025.

Y141	Exemption for operators, as defined in Article 38(3) of Regulation
------	--

	(EU) 2023/1115
--	----------------

A new TARIC document code Y142 has been created declarations made in the context of a non-commercial activity (Article 2 (15), 2(17) and 2(18) of Regulation (EU) 2023/1115) where this Regulation does not apply.

Y142	Exemption for non-commercial activity (Article 2 (15), 2(17) and 2(18) of Regulation (EU) 2023/1115).
------	---

There is no need to create a specific TARIC document code for the registration as only the registered importers can present a due diligence statement, for which a specific TARIC document code has been created (C716).

### 3.2. Footnotes
